

## **Notice to Members - Health & Safety**

Part of our approach to Health & Safety involves ensuring that members and visitors are **aware** of the Health and Safety measures in place at the Club.

Health and Safety **notices** are located in the foyer at Brough club house and on the main notice board at Winteringham club house.

### **Members are requested to make themselves aware of the information contained on the notices.**

Of particular importance are the following, which are displayed:

- Risk Assessments & Work Procedures - which advise safe ways to use equipment and how to carry out tasks safely.
- Safety Data Sheets - which give information about hazardous substances and related first aid advice.
- The location of Fire Equipment, the First Aid Kit and Defibrillator.
- The process to be followed if a defect is discovered or after an Accident or Near miss - this is a feedback process to help reduce future risk.

Further information can be found here

<https://www.humberyawlclub.com/documents.php>

If members would like to discuss the Club's approach to Health & Safety we would be happy to arrange meetings at club premises.

Thank you for your attention to this matter.

The General Committee
