Discrimination on the basis of race, nationality, disability, gender, age or sex will not be tolerated.

If any member is concerned that someone is not following the Code of Conduct they should inform a member of the HYC Council.

Enforcement of Club Rules

The Rules of the Humber Yawl Club were drawn up over many years for the benefit of all members to ensure fair play and provide equal access and enjoyment of all facilities within the Club's financial constraints.

In the event that members disregard the Rules, Bye Laws or Regulations, refuse payment for services provided, or act in such a manner that their behaviour may damage the good name of the Club the matter will be dealt with in accordance with the procedure laid out below.

Transgressions should be reported, in writing, to appropriate Haven Committee who will try to settle the matter with the agreement of all concerned.

If this is not possible the Haven Committee, the complainant or the alleged offender may refer the matter, in writing, to the Council. The Council's decision will be final.

If deemed necessary members may be suspended until the Council can investigate the matter. This is to prevent any escalation. The Council will treat the matter confidentially. A member who is the subject of disciplinary action will be advised in writing of the nature of the complaint against him/her, will be allowed sufficient time to prepare for a disciplinary hearing, and will be given the opportunity to state his/her case. The member will have the right to be accompanied by a fellow member, or other representative (but not a legal representative) at the discretion of the Council. The Council decides whether misconduct has taken place, and if so, decides on an appropriate and proportionate sanction or penalty.

The member will be advised of the outcome within 7 days. A proper record will be kept of any disciplinary decision, taking into account the need for confidentiality.

In the event of gross misconduct then the sanction will be termination of membership and full removal of all property from the Club's premises within a set time period at the owner's expense.

Rule 26: BERTHING REGULATIONS

1. Berths are wholly owned by the HYC and are allocated annually, by the Haven Committee under the leadership of the appropriate Haven Mate, for mooring sailing boats in accordance with these rules and regulations.

2. All members requiring a berth, storage, or entry onto waiting listing must apply annually by 1st January using the forms supplied with membership renewal. If an annual (re)application is not received for a boat with a current berth, storage or waiting listing then it will be assumed that this is no longer required and it may be reallocated to another member.

A photocopy of the boat's insurance should be provided with the berthing application if possible and before the boat is brought onto club premises in any case.

Berthing applications may only be made on a signed and completed paper copy of the official Club form.

Berthing and Storage Rates for each individual haven will be set by the Haven committee.

The berthing/storage fees collected by each haven will be used for the maintenance and development of that haven.

3. In fairness to members on the waiting list, berth holders are expected to sail their boats regularly. If a berth holder is not intending to use their yacht regularly then it should be put on the hard. Boats which are not used may be removed to the hard, on the authority of the haven mate, unless there are mitigating circumstances.

4. The berth is allocated to the member for the size of the yacht declared on the application form. If the owner changes his or her yacht, permission must be sought from the Berthing Committee before mooring the new one in the haven.

5. Each Haven Berthing Committee, under the leadership of the Haven Mate, reserves the right to change the berthing arrangements in the havens, but will endeavour to minimise the inconvenience to members.

6. Berths will not be allocated for powerboats, motor-sailors or to power-sailors. In deciding whether a vessel is a motor-sailor or power-sailor, the manufacturer's description of the vessel and/or other parameters such as sail area/displacement ratio, engine power/displacement ratio, hull type and so on will be taken into account. In the event of a dispute, the final decision will lie with the HYC council.

7. Members must maintain adequate insurance for their yacht at all times against third party claims whilst berthed/stored, and be able to furnish proof upon request.

8. By prior arrangement, berth holders may leave a berth unoccupied for a maximum of one full sailing season providing the berthing fee is paid in full, without losing their allocation. Under such circumstances, the Berthing Committee will make a temporary allocation of the berth to a member on the waiting list. At the Haven Berthing Committee's discretion this period may be extended to two full sailing seasons for yachts cruising more distant areas.

9. The supply and maintenance of stern and mooring lines at the havens are the responsibility of the berth holder and shall comply with the specification posted on the clubhouse notice boards. One stern line per boat only. Permission must be sought from the relevant mate before laying new ones.

10. The maintenance of the pontoon on which a vessel is moored is the responsibility of the berth holder in cooperation with the appropriate Haven Mate.

11. Floating moorings and pick-up buoys are strictly forbidden.

12. Yachts must be adequately fendered whilst lying at their berths.
12. Annual Membership subscriptions must be paid before a berth, storage or wait listing will be allocated.
13. Berthing/Storage fees to be paid before occupancy and in any case by the 31st March. If not paid by 31st May the Committee may remove the yacht and reallocate the berth.
14. A waiting list generally exists for HYC berths. Members requiring a berth for the first time and berth holders changing to a yacht of a different size are advised to place their names on the waiting list at the earliest opportunity by completing an application form and sending it to the appropriate Haven Mate. There is no charge for going on the waiting list.
15. Vacant berths will be offered to the yacht at the top of the appropriate list. If that person does not have a suitable yacht to put in the berth then he or she will return to the bottom of the list and the berth offered to the next person.
16. To remain on the waiting list an application form must be submitted annually. Those who have a yacht in HYC storage, and have that particular yacht on a waiting list, may endorse their annual storage application form to the effect that they wish to remain on the waiting list.
17. If no waiting list application renewal is received by 1st January, for a yacht currently on the list, then it will be removed from the list. If an application is received later than this then it will be placed at the bottom of the list.
18. Late payment of membership/storage fees will result in any relevant yachts being removed from the waiting list. On payment of any late membership/storage fees the yacht in question will be put back at the bottom of the waiting list.
19. Each Full membership allows for the maximum allocation of one berth. "Full & Family" members wishing to apply for a second berth must convert to two individual (Full) memberships.
20. Tenders without a HYC berthed/stored mother boat are not permitted.
21. Tenders associated with a legitimate "mother" boat must be kept under, inside or on top of the stored/berthed mother boat and must not extend beyond its "footprint". If not able to be stored within the footprint then a storage application must be completed for the tender which will then be considered by the Berthing Committee. If accepted then a fee will be applied.
22. At no time will the tender be given a berth. The tender must not be floated in the haven, the only exception being that it is towed behind the "Mother" boat on leaving or accessing the Havens.
23. The tender must be covered under the policy of the "Mother" boat" or a stand-alone policy with a minimum of third-party cover

24. Mast Issues

Boat owners must consult the appropriate mate and abide by his decision as to whether he requires mast removal prior to coming out and or for storage in the yard.

Mast must be de-rigged before storage. Masts that have not been de-rigged may be removed from the racks. All stored masts and spars must be clearly marked with the boat name.

25. Small Ships Register

Members are advised to consider registering their vessel.

Rule 27: WAITING LIST

1. The waiting list is intended for prospective berth holders and existing berth holders who wish to have a berth in a different haven or in a different size category to the berth they currently occupy.
2. All berths are numbered and at the discretion of the Haven Berthing Committees are deemed suitable for a given category of yacht. The categories are specified in terms of boat length, i.e.: up to 21ft., 21ft. to 24ft., 24ft. to 29ft., 29ft. to 33ft. and 33ft. to 38ft. Max Beam 12ft.
3. Members may specify one or two havens on their waiting list application forms. When they occur, vacant berths will be allocated on the basis of seniority on the waiting list for the particular size category and the haven available.
4. Where two or more members are equally rated in terms of number of waiting list applications then the Berthing Committee reserve the right to allocate the berth to the member who has the best record of service to the club.
5. A yearly tally of the total boat beam width in use at each haven will be made and this will be compared with the total space available in each haven with the aim of minimising overcrowding. In all instances the Berthing Regulations will apply. Berths are numbered so that overcrowding should not occur.

Rule 28: ELECTRICAL POWER

1. Electrical power used to carry out occasional maintenance or battery charging, whether the boat is afloat or ashore is included in the berthing fee. The berth holder must be in attendance at all times. Mains leads must be removed/disconnected when the boat is unattended.
2. Electrical power used for any other purposes (e.g. any unattended use) is charged at a rate determined by the Haven Committee. This may involve metering and individual billing if the Haven Committee so decides.
3. Mains leads must comply with the current electrical supply regulations, cable must be of the correct type, no joints or intermediate connections, no multiple connections and with a maximum length of 25 metres.
4. Electricity supply points must in no way be modified or extended without the Haven Committee's approval
5. The Haven Committee members are authorized to remove any connections contravening these regulations and to report any such contraventions to the Haven Committee.
